All concepts 12 Static Friction Vernier*

Static friction is the force that counters your force on the box. If you apply a light horizontal push that does not move the box, the static friction force is also small and directly opposite to your push. If you push harder, the friction force increases to match the magnitude of your push.

*Static and Kinetic Friction - Vernier
Experiment #12 from Physics with Vernier In this*

Page 5/44

experiment, we will use a Dual-Range Force Sensor to study static friction and kinetic friction on a wooden block. A Motion Detector will also be used to analyze the kinetic friction acting on a sliding block.

Static and Kinetic Friction - Vernier

PWV #12: Use a Dual-Range Force Sensor to measure the force of static and kinetic friction.

Determine the relationship between force of static friction and the weight of an object. Measure the coefficients of static and kinetic friction for a particular block and track.
