The coup de grace of
photography (at least
for beginners) is
shooting in manual mode.*

Page 103/110

When you shoot in manual mode, you have full control over ISO, aperture, and shutter speed. Hopefully tinkering in AV and TV modes gives you a better

Page 104/110

grasp on camera settings. I find the best way to learn more is to research and tinker.

If you feel confused, be sure to

blurrier background. A lower f/stop will also help with capture images in low light.

Free eBook: Beginner's Guide to Choosing A DSLR ...

A digital single lens reflex, or DSLR camera, is a camera with an

internal mirror and prism system. This system is used to direct the light from the lens up to the viewfinder that you look through to compose the image. I appreciate this may sound a little opaque, so let me break it down a bit. All digital

Page 108/110
