

Biology Immune System Webquest Answers 28

AP Biology: Immune System WebQuest In this webquest, you will explore how the human body protects itself from invaders through three lines of defense. You will be going to different websites to see videos, animations, and images and to read explanatory text that will give you information that you will need in order to answer a series of questions about the immune system and how it works.

Once this defense is breached, investigate how the organs of the immune system respond to the invader. Gather information on each organ and what role they play in your immune system. Be prepared to provide this information to your group. As a guide for your research, you should be able to answer the following questions:
