The Holden Astra is a small car formerly marketed by Holden. The first couple of generations of Astra were made only for Australia, and was a derivative of the locally produced Nissan Pulsar. With the Button car plan coming into effect, it

Page 95/125

was replaced by the Holden Nova, a rebadged Toyota Corolla.. In 1995, Holden commenced selling the TR Astra in New Zealand.

subsidiary of Adam Opel AG. Since its release in 1979, it has evolved into six derivatives. Astra is a strong seller in UK, and second most popular family car in Britain. It has been also popular as a racing car, particularly in touring car racing.
