# *Mandela And The Mahatma The Hindu*

Essay from the year 2014 in the subject Biographies, grade: 1,3, University of Kent (Department of International Relations), language: English, abstract: The essay will outline how Mahatma Gandhi´s and Nelson Mandela´s childhood and upbringing prepared them for future roles. It will look at the two political leaders within the time period of Mandela's upbringing until his imprisonment and concerning Gandhi from his birth until the liberation of India. Therefore, will this essay focus on their family background and their schooling in order to answer the question raised. Later on, will the author draw comparisons between the two of them and intend to illustrate how their early experiences influenced their political actions. In particular how it shaped and predetermined their attitude towards non-violent protest. This is of importance in order to portray the lives of these two figures who shaped the history of the 20th like no other in an unpreceded, unique and non-violent manner. They both liberated their nation from enormous burdens, which had their cause and origin in the colonial past of the nations. Gandhi like Mandela enabled their nation to self-agency to overcome the suppressive colonial system, whereas Mandela succeeded in overcoming the racist system of apartheid. The political leaders had both encountered racism only after they grew up and had therefore and idea that racism and suppression is not natural status and they therefore turned against racism. Gandhi is often referred to as the father of post-colonial India, and is perceived as one of the leading examples of practiced nonviolence as a form of conflict management and overcoming injustice. The public´s interest in his life and his concept of non-violence has been enormous even after his death. Especially, since several groups have referred to his concrete examples of non-violent civil disobedience.

On his passport he was Mohandas Karamchand Gandhi. The poet Rabindranath Tagore gave him the title 'Mahatma'- the great soul- but he was rather uncomfortable with that. Nelson Mandela calls him a 'sacred warrior', others describe him as the 'the saint of the spinning wheel' and we now declare him as our 'Father of the Nation'. A courageous freedom fighter, a shrewd politician, a passionate social reformer and a staunch nationalist, Mahatma Gandhi was all this and much more. He was the most unusual leader this country has seen, and one of the most influential personalities whose name is synonymous with India's independence. He was the one who touched the lives of millions, whose ideals of satyagraha and ahimsa inspired great leaders of the world, and who could make the entire country come to a halt by going on a fast. Through a vivid narrative, author Subhadra Sen Gupta recreates the life and legacy of this phenomenal leader to portray the man beneath the simple handspun clothes, who ate saltless vegetables and bitter neem chutney; who greeted kings and paupers alike; who walked 240 miles at the age of sixty to break the Salt Law; and whose entire life was dedicated to truth and to peace. Even today as we read inspirational accounts of Gandhiji's life and talk of gandhigiri, we know that his ideals are alive and relevant to today's generation. (Libro del luchador por la libertad y del activista por la independencia)

A guide to ethical and empowering leadership for teachers and trainers in every field. In this inspirational and practical book are gathered some of the classic works of visionary management consultant and educator Robert K. Greenleaf. This volume includes his definitive work on developing servant-leadership in a university, Teacher as Servant. Along with that parable are two of his essays, "Life's Choices and Markers, " and the original version of "The Servant as Leader, " written for a student audience. Each provides a different but complementary perspective on servant-leadership and its relationship to the art of teaching and the act of learning. For this edition, the editors have added commentary to make the parable and essays even more useful to those interested in the teaching and practice of servant-leadership.

This series will tell the amazing stories of inspiring people who have made a difference and changed the world, despite the odds stacked against them. They will detail the characters' humble origins, the obstacles standing in their way that had to be overcome, and discuss the successes and achievements for which they are lauded today. This book tells the story of Nelson Mandela, who became South Africa's first black President and helped to end apartheid despite the opposition of the white Afrikaner government.

Nelson Mandela 1918 - 2013 (Rest in Peace Madiba) Nelson Rolihlahla Mandela was a South African anti-apartheid revolutionary, politician, and philanthropist who served as President of South Africa from 1994 to 1999. For most South Africans, Nelson Mandela is the father of their nation and many even called him "Tata", a Xhosa word for father. It was sometimes forgotten that he was also a real father, grandfather, great-grandfather and husband He earned a place in history alongside the likes of another father of a nation, Mahatma Gandhi. But there was a fundamental difference between these beloved men. Persuasive arguments paint Gandhi as a dismal family man. By all accounts, Mandela was a strong and loving family man. Even so, Mandela and his family paid dearly in the currency of sacrifice and pain for his commitment to his country's freedom. Mandela himself offered a glimpse into his personal war. "To be the father of a nation is a great honour, but to be the father of a family is a greater joy. But it was a joy I had far too little of," he said in April 1992.

In the pantheon of freedom fighters, Mohandas Karamchand Gandhi has pride of place. His fame and influence extend far beyond India and are nowhere more significant than in South Africa. "India gave us a Mohandas, we gave them a Mahatma," goes a popular South African refrain. Contemporary South African leaders, including Mandela, have consistently lauded him as being part of the epic battle to defeat the racist white regime. The South African Gandhi focuses on Gandhi's first leadership experiences and the complicated man they reveal—a man who actually supported the British Empire. Ashwin Desai and Goolam Vahed unveil a man who, throughout his stay on African soil, stayed true to Empire while showing a disdain for Africans. For Gandhi, whites and Indians were bonded by an Aryan bloodline that had no place for the African. Gandhi's racism was matched by his class prejudice towards the Indian indentured. He persistently claimed that they were ignorant and needed his leadership, and he wrote their resistances and compromises in surviving a brutal labor regime out of history. The South African Gandhi writes the indentured and working class back into history. The authors show that Gandhi never missed an opportunity to show his loyalty to Empire, with a particular penchant for war as a means to do so. He served as an Empire stretcher-bearer in the Boer War while the British occupied South Africa, he demanded guns in the aftermath of the Bhambatha Rebellion, and he toured the villages of India during the First World War as recruiter for the Imperial army. This meticulously researched book punctures the dominant narrative of Gandhi and uncovers an ambiguous figure whose time on African soil was marked by a desire to seek the integration of Indians, minus many basic rights, into the white body politic while simultaneously excluding Africans from his moral compass and political ideals.

Mahatma Gandhi, forced to live under British rule, was determined to organize his countrymen and work for India's independence. Would he achieve his goal? Nelson Mandela lived most of his life under apartheid—a segregated society. Not even imprisonment could destroy his belief in the equality of all South Africans. What was his struggle like? Read these biographies to find out.

Nelson Mandela completed and published this autobiography at the age of 73 when he became President of South Africa. He selected to narrate his own story which is defined as the 'stand point' in the autobiographical discourse. This 'stand point' which Nelson Mandela chose was very crucial and vital because he wanted to personify his journey from 'rags to riches', from 'literally nothing to becoming everything'. He wanted to write his autobiography when he fulfilled the aim of his life. He could see the life backward from the highest point of his life. As an autobiographer, Nelson Mandela became iconic figure in public life. He felt to share his life story because there was tremendous curiosity amongst all the readers around the world about his experiences and sacrifices.

The very act of writing a life down constitutes an attempt on the part of the writer to justify one's life. The every act of autobiography is the judgment of the writer to feel that "life is worth being written down." (Onley 1972: 57). According to Marcus, the critic on this genre adds, "autobiography thus should rather belong to the people of 'lofty' reputation or people who have something of historical importance to say' ( Marcus 1984: 31-32). Nelson Mandela in his acknowledgement clearly says that "I began writing it (autobiography) clandestinely in 1974 during my imprisonment on Robben Island." Apparently Mahatma Gandhi finished his autobiography in his imprisonment time. Solitude seems a necessary requirement for political personalities to write as writing needs time and concentration. 'Want of time' is the main constraint in the life of political figures. Another similar example is the case of Martin Luther King Jr. He attempted to write his autobiography 'Stride towards freedom' but could not complete it in his short span of life simply because of "want of time'. Martin Luther King Jr's wife completed the dream of her husband by compiling his autobiography. Nelson Mandela admits "since my release, my schedule has been crowded with numerous duties and responsibilities which have left me little free time for writing." (acknowledgement)

**When we look back on the 20th Century a few statesmen stand head and shoulders above the rest, marked out by their total commitment to their cause, their humanity and their oratory. Among them are to be found Nelson Mandela, and Mohanda (also known as Mahatma - 'Great Soul') Gandhi. Both of them were marked by the fact that greatness was thrust upon them rather than sought; and both left a legacy of words that continue to influence others. Neither was a perfect human being nor ever claimed to be - but each one fought tirelessly for the principles he believed in and they elevated the stature of the human race in so doing.Mahatma Gandhi is today remembered particularly for his adherence to the principle of using non-violence to secure his ends and for his ascetic, simple lifestyle that placed him among his people rather than above them. His influence, like that of all great teachers down the centuries, has spread far beyond the borders of his nation and his words still have much to teach us.This book draws together an extensive collection of quotes from Gandhi, which will give you much to think about as well as helping you to understand the human being behind them.**

Gandhi as he forged the philosophy of Satyagraha—from Indian words for "truth" and "firmness"—amid the brutal racism of South Africa and helped lead the struggle for Indian independence. Readers will learn about the Mahatma—"Great soul in peasant's garb"—often in his own words, as well as the philosophy of truth and nonviolence that would later inspire Nelson Mandela, Martin Luther King Jr., and other rebels with a cause for ages to come. Students will be guided through their reading with a glossary of important words, a timeline, and references for further reading on the topic.**

**With the crisis of leadership in the western democracies, there has been a growth of interest in how leaders outside of the west emerge and consolidate their positions. This book analyses the communication strategies of six charismatic non-western leaders: Mahatma Gandhi, Nelson Mandela, Fidel Castro, Ayatollah Khomeini, Mohammed Mahathir and Lee Kuan Yew. The book addresses the following questions in order to arrive at a better understanding of communication and leadership: How do leaders communicate? Do leaders communicate more by words, or actions? Do leaders have unique communication strategies? Are leaders moral beings, or impostors? The book describes how each of these leaders designed a unique style that integrated verbal and non-verbal modes of communication. It argues that leadership style is performed through the cumulative interaction of non-verbal modes – dress, body language, physical possessions, symbols and symbolic actions – with verbal strategies for communicating visions, values and legitimacy. In order to understand how each of these leaders undertakes a dramatic 'performance' of leadership, Jonathan Charteris-Black uses Erving Goffman's notion of 'Front'. Noting the inherent similarities between the mutual dependency of actors with audiences and leaders with followers, the book suggests that leaders – like actors – use metaphors and symbols to satisfy followers' psychological and symbolic needs and that leadership is communicated through impression management, metaphor and media choices. A fascinating and well executed study, this book will interest students and academics working on leadership, applied linguistics, communication studies and politics.**

STRUGGLE FOR FREEDOM is the compelling story of one of the most iconic and enigmatic political figures of our time. Just like Nelson Mandela, Martin Luther King and Mahatma Gandhi, the leader of Burma's democracy movement, Aung San Suu Kyi has become an icon for freedom - throughout the world, she is associated with a peaceful struggle for democracy and human rights. But what is she really like? What drives her to make such enormous personal sacrifices for her country? In StRUGGLE FOR FREEDOM, journalist and author Jesper Bengtsson draws a portrait of one of the most most talked about political personalities of our times. He describes her background as the daughter of Burma's liberation hero Aung San, the years in England and New York and her return to Burma in the 1980s. the military junta placed her under house arrest as early as 1989. Yet she remained as a uniting factor for Burma's democracy movement. Internationally her fame grew the longer she was in house arrest. Bengtsson demonstrates that Aung Sun Suu Kyi's magnetism is a matter of charisma and courage, but also that she personifies one of the major questions of our era: what conditions are necessary for the emergence of democracy out of profoundly authoritarian systems?
