

Mother In The Middle A Biologists Story Of Caring For Parent And Child

Sybil Lockhart, a Berkeley neurobiologist, became a "mother in the middle" when she was pregnant with her second daughter and her mother was diagnosed with Alzheimer's disease. What makes Sybil's story different, and so powerful, is that she understood the neurological processes, by turns exciting and devastating, that were

taking place in the brains of those she loved.

Interweaving her scientific expertise with her own complicated emotions, she writes with elegant simplicity and breathtaking honesty about biology's inevitable, powerful effects on the people around her. When her mother begins to show the first subtle signs of the disease that is slowly ravaging her brain, Sybil refuses to consider the possibility of dementia, insisting that all her mother needs is a daughter nearby. She relocates her

young family to her beloved San Francisco Bay Area, where her memories of her mother and her childhood are deeply anchored. As Sybil sets about creating new memories against the backdrop of her past, the emerging undeniable truth about her mother's condition threatens to overwhelm her ability to maintain her career, nurture her marriage, raise her young daughter, and care for herself during her second pregnancy. Even though she appreciates the beauty of

the dramatic biological processes at work inside the brains of her family members, she also understands their inevitable power, and she bravely describes the complicated emotions -- denial, rage, ambivalence, exhaustion -- that so many caregivers experience. With a unique combination of science and intimate experience, *Mother in the Middle* is a story of mothers and daughters, science and creativity, and life's exquisite intertwining of love and loss.

Twelve-year-old Lucy Desberg is a natural problem solver. After the local homecoming queen shows up at her family's struggling drugstore with a beauty disaster that Lucy helps to fix, Lucy has a long line of makeover customers for every school dance and bat mitzvah. But all the makeup tips in the world won't help save the pharmacy. If only she could find a way to make the pharmacy the center of town again—a place where people want to spend time, like in the old days. Lucy

dreams up a solution that could resuscitate the family business and help the environment, too. But will Lucy's family stop fighting long enough to listen to a seventh-grader? This book is a funny and sweet debut featuring an unforgettable narrator who knows what she wants, whether it's great makeup, a killer business plan, or a better world. F&P level: T F&P genre: RF

From the National Book Award-winning author of *A Wrinkle in Time*, three poignant novels exploring

the power of love, family, and secrets. *The Other Side of the Sun*: In this atmospheric novel of suspense set in the turn-of-the-century South, a nineteen-year-old British newlywed must stay with her American husband's family on their South Carolina estate when he is called away on a diplomatic mission. She soon discovers her in-laws are not who they appear to be—as she stirs up dark secrets that were meant to remain buried. *A Live Coal in the Sea*: After her teenage granddaughter

poses a troubling question, Dr. Camilla Dickinson must confront the painful history she's long kept hidden as she relates a complex saga involving her beautiful, adulterous mother; her troubled son; and the difficult choices that have affected three generations. "[A] haunting domestic drama."

-Publishers Weekly A Winter's Love: Emily Bowen's marriage is hanging by a thread after hardships befall her family. During their sabbatical in Switzerland,

a man from her past returns, offering the affection she craves, and Emily must decide if she's willing to sacrifice the life she's built for an unseen future. "A convincing story of mixed loyalties and divided affections." -Kirkus

Through a thoughtful, well-documented evaluation of our society and honest reflections by mothers today, this compelling and controversial book offers readers a challenge--to rediscover and preserve the biblically ordained, psychologically sound, and developmentally critical vision of motherhood that will better serve people in the 21st century.

columnist and science writer Carl
Zimmer presents a profoundly
original perspective on what we

pass along from generation to generation. Charles Darwin played a crucial part in turning heredity into a scientific question, and yet he failed spectacularly to answer it. The birth of genetics in the early 1900s seemed to do precisely that. Gradually, people translated their old notions about heredity into a language of genes. As the technology for studying genes became cheaper, millions of people ordered genetic tests to link themselves to missing parents, to distant ancestors, to ethnic identities... But, Zimmer writes, “Each of us carries an amalgam of fragments of DNA, stitched together from some of our many ancestors. Each piece has its own ancestry,

traveling a different path back through human history. A particular fragment may sometimes be cause for worry, but most of our DNA influences who we are—our appearance, our height, our penchants—in inconceivably subtle ways.” Heredity isn’t just about genes that pass from parent to child. Heredity continues within our own bodies, as a single cell gives rise to trillions of cells that make up our bodies. We say we inherit genes from our ancestors—using a word that once referred to kingdoms and estates—but we inherit other things that matter as much or more to our lives, from microbes to technologies we use to make life more comfortable. We

need a new definition of what heredity is and, through Carl Zimmer's lucid exposition and storytelling, this resounding tour de force delivers it. Weaving historical and current scientific research, his own experience with his two daughters, and the kind of original reporting expected of one of the world's best science journalists, Zimmer ultimately unpacks urgent bioethical quandaries arising from new biomedical technologies, but also long-standing presumptions about who we really are and what we can pass on to future generations.

*Using printed and manuscript texts
composed between 1575 and 1672,
Jennifer Heller defines the genre of*

the mother's legacy as a distinct branch of the advice tradition in early modern England that takes the form of a dying mother's pious counsel to her children. Reading these texts in light of specific cultural contexts, social trends, and historical events, Heller explores how legacy writers used the genre to secure personal and family status, to shape their children's beliefs and behaviors, and to intervene in the period's tumultuous religious and political debates. The author's attention to the fine details of the period's religious and political swings, drawn from sources such as royal proclamations, sermons, and first-hand accounts of book-burnings, creates a fuller context for her analysis of the legacies. Similarly, Heller explains the appeal of the

genre by connecting it to social factors including mortality rates and inheritance practices. Analyses of related genres, such as conduct books and fathers' legacies, highlight the unique features and functions of mothers' legacies. Heller also attends to the personal side of the genre, demonstrating that a writer's education, marriages, children, and turns of fortune affect her work within the genre.

Three sisters. Three childhoods ruined. One chance to heal the scars of the past. After their death of their cruel and abusive mother, estranged sisters Alex, Catherine and Beth reunite once again. Alex, the youngest, is a bitter, unhappy woman who refuses to face the horrors of her childhood. Finding solace in a bottle, her life is spiralling dangerously out of control. Eldest child, Catherine, has strived for success, despite her difficult upbringing. But behind the carefully constructed world lies secret pain - and if her secret comes out, her world could shatter forever. Beth, the middle child, bore the greatest burden. But having blocked out the cruelty they suffered, she remained

with their mother until her death. Now she must confront the devastating reality of the past. Brought together as strangers, the sisters embark on a painful journey to heal themselves and each other. Can they finally put their terrible childhoods to rest and start over? An emotional, heart-breaking and compelling novel for readers of Diane Chamberlain, Amanda Prowse and Kelly Rimmer Previously published as The Middle Child Previously published as My Name Is" First published in 2004. Routledge is an imprint of Taylor & Francis, an informa company. From the Introduction, by Caroline Walker Bynum: The opportunity to rethink and republish several of my early articles in combination with a new essay on the thirteenth century

has led me to consider the continuity-both of argument and of approach-that underlies them. In one sense, their interrelationship is obvious. The first two address a question that was more in the forefront of scholarship a dozen years ago than it is today: the question of differences among religious orders. These two essays set out a method of reading texts for imagery and borrowings as well as for spiritual teaching in order to determine whether individuals who live in different institutional settings hold differing assumptions about the significance of their lives. The essays apply the method to the broader question of differences between regular canons and monks and the narrower question of differences between one kind of monk--the Cistercians--and other religious

groups, monastic and nonmonastic, of the twelfth century. The third essay draws on some of the themes of the first two, particularly the discussion of canonical and Cistercian conceptions of the individual brother as example, to suggest an interpretation of twelfth-century religious life as concerned with the nature of groups as well as with affective expression. The fourth essay, again on Cistercian monks, elaborates themes of the first three. Its subsidiary goals are to provide further evidence on distinctively Cistercian attitudes and to elaborate the Cistercian ambivalence about vocation that I delineate in the essay on conceptions of community. It also raises questions that have now become popular in nonacademic as well as academic circles: what significance should we

give to the increase of feminine imagery in twelfth-century religious writing by males? Can we learn anything about distinctively male or female spiritualities from this feminization of language? The fifth essay differs from the others in turning to the thirteenth century rather than the twelfth, to women rather than men, to detailed analysis of many themes in a few thinkers rather than one theme in many writers; it is nonetheless based on the conclusions of the earlier studies. The sense of monastic vocation and of the priesthood, of the authority of God and self, and of the significance of gender that I find in the three great mystics of late thirteenth-century Helfta can be understood only against the background of the growing twelfth- and thirteenth-century

concern for evangelism and for an approachable God, which are the basic themes of the first four essays. Such connections between the essays will be clear to anyone who reads them. There are, however, deeper methodological and interpretive continuities among them that I wish to underline here. For these studies constitute a plea for an approach to medieval spirituality that is not now--and perhaps has never been--dominant in medieval scholarship. They also provide an interpretation of the religious life of the high Middle Ages that runs against the grain of recent emphases on the emergence of "lay spirituality." I therefore propose to give, as introduction, both a discussion of recent approaches to medieval piety and a short sketch of the religious

history of the twelfth and thirteenth centuries, emphasizing those themes that are the context for my specific investigations. I do not want to be misunderstood. In providing here a discussion of approaches to and trends in medieval religion I am not claiming that the studies that follow constitute a general history nor that my method should replace that of social, institutional, and intellectual historians. A handful of Cistercians does not typify the twelfth century, nor three nuns the thirteenth. Religious imagery, on which I concentrate, does not tell us how people lived. But because these essays approach texts in a way others have not done, focus on imagery others have not found important, and insist, as others have not insisted, on comparing groups to other groups

(e.g., comparing what is peculiarly male to what is female as well as vice versa), I want to call attention to my approach to and my interpretation of the high Middle Ages in the hope of encouraging others to ask similar questions.

Historical research into emotionality is at present generally enjoying an heightened level of interest. This

bilingual volume documents the proceedings of an international conference, discussing current paradigms and perspectives in historical literary research into emotions and heightening awareness of the mediality of cultures of emotion in historical change. The discussion of methodological questions opens up avenues for interdisciplinary research.

"Set in near-future America, [this novel] introduces readers to a government-run reform program where bad mothers are retrained using robot doll children with artificial intelligence.

Protagonist Frida Liu, a 39-year-old Chinese-American single mother in Philadelphia, loses custody of her 18-month-old daughter Harriet after she leaves Harriet home alone for two hours on one very bad day. To regain custody, Frida

must spend a year at [the] newly-created institution, where she practices parenting with bad mothers from all over the county. There, she learns to love an uncannily life-like toddler girl doll in order to demonstrate her maternal instincts and prove to her family court judge that she deserves a second chance"--

Women's writing in any period remains of critical concern, both at undergraduate and postgraduate level. Alexandra Barratt's edition offers a wide range of texts from the period 1300-1500, including: Original texts written by women in the Middle Ages Texts translated by women in the Middle Ages Prayers, meditations, scriptural comment, and accounts of religious experiences Educational writings Romance, poetry Each poem is given a headnote, giving details of composition, manuscript and sources. Full on-page annotation is provided giving details of allusions to contemporary religious, historical and social issues. A general introduction gives context to all the pieces and provides a penetrating account of the role of women in a burgeoning society of literary and cultural transmission.

BOOK OF THE YEAR • NEW YORK TIMES BEST SELLER • From the indie rockstar of Japanese Breakfast fame, and author of the viral 2018 New Yorker essay that shares the title of this book, an unflinching, powerful memoir about growing up Korean American, losing her mother, and forging her own identity. In this exquisite story of family, food, grief, and endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college,

Page 31/37

finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

exploration of poverty in America. Includes a foreword by Barbara Ehrenreich. At 28, Stephanie Land's plans of breaking free from the roots of her hometown in the Pacific Northwest to chase her dreams of attending a university and becoming a writer, were cut short when a summer fling turned into an unexpected pregnancy. She turned to housekeeping to make ends meet, and with a tenacious grip on her dream to provide her daughter the very best life possible, Stephanie worked days and took classes online to earn a college degree, and began to write relentlessly. She wrote the true stories that weren't being told: the stories of overworked and underpaid Americans. Of living on food stamps and WIC (Women, Infants, and Children) coupons to eat. Of the government programs that provided her housing, but that doubled as halfway houses. The aloof government

employees who called her lucky for receiving assistance while she didn't feel lucky at all. She wrote to remember the fight, to eventually cut through the deep-rooted stigmas of the working poor. *Maid* explores the underbelly of upper-middle class America and the reality of what it's like to be in service to them. "I'd become a nameless ghost," Stephanie writes about her relationship with her clients, many of whom do not know her from any other cleaner, but who she learns plenty about. As she begins to discover more about her clients' lives-their sadness and love, too-she begins to find hope in her own path. Her compassionate, unflinching writing as a journalist gives voice to the "servant" worker, and those pursuing the American Dream from below the poverty line. *Maid* is Stephanie's story, but it's not her alone. It is an inspiring testament to the strength, determination, and ultimate triumph of the

human spirit.
