In 1987, medical transcriptionist Patricia Pereira suddenly started receiving telepathic communications from the star Arcturus and was requested to begin a series of galactically inspired manuscripts. The mission of this series of books is to awaken us to our individual and collective spiritual obligation for the health and well-being of our planet and all creatures who live upon her. Philosophical in cope, the essays in these books provide pragmatic, practical suggestions for emotional, mental physical, and spiritual transformation. They remind us of our familial relationships to beings of light who inhabit the great star nations. This book, the first in a series of four, provides practical suggestion to help us shift our emotional, physical, and spiritual states so that we can prepare to take our future place in the Universal Community.

John J. Collins here offers an up-to-date review of Jewish messianic expectations around the time of Jesus, in light of the Dead Sea Scrolls. He breaks these expectations down into categories: Davidic, priestly, and prophetic. Based on a small number of prophetic oracles and reflected in the various titles and names assigned to the messiah, the Davidic model holds a clear expectation that the messiah figure would play a militant role. In sectarian circles, the priestly model was far more prominent. Jesus of Nazareth, however, showed

more resemblance to the prophetic messiah during his historical career, identified as the Davidic Son of Man primarily after his death. In this second edition of *The Scepter and the Star* Collins has revised the discussion of Jesus and early Christianity, completely rewritten a chapter on a figure who claims to have a throne in heaven, and has added a brief discussion of the recently published and controversial *Vision of Gabriel*.

Gloria Swanson defined what it meant to be a movie star, but her unforgettable role in *Sunset Boulevard* overshadowed the true story of her life. Now Stephen Michael Shearer sets the record straight in the first in-depth biography of the film legend. Swanson was Hollywood's first successful glamour queen. Her stardom as an actress in the mid-1920s earned her millions of fans and millions of dollars. Realizing her box office value early in her career, she took control of her life. Soon she was not only producing her own films, she was choosing her scripts, selecting her leading men, casting her projects, creating her own fashions, guiding her publicity, and living an extravagant and sometimes extraordinary celebrity lifestyle. She also collected a long line of lovers (including Joseph P. Kennedy) and married men of her choosing (including a French marquis, thus becoming America's first member of "nobility"). As a devoted and loving mother, she managed a quiet success of raising three children. Perhaps most important, as a keen businesswoman she also was able to extend her career more than sixty years. Her astounding comeback as

Norma Desmond in Billy Wilder's *Sunset Boulevard* catapulted her back into the limelight. But it also created her long-misunderstood persona, one that this meticulous biography shows was only part of this independent and unparalleled woman.

The Making of Barack Obama

A Novel

Pandora's Star and Judas Unchained

New York Times Bestseller Rising Star is the definitive account of Barack Obama's formative years that made him the man who became the forty-fourth president of the United States—from the Pulitzer Prize-

winning author of Bearing the Cross Barack Obama's speech at the 2004 Democratic National Convention instantly catapulted him into the national spotlight and led to his election four years later as America's first African-American president. In this penetrating biography, David J. Garrow delivers an epic work about the life of Barack Obama, creating a rich tapestry of a life little understood, until now. Rising Star: The Making of Barack Obama captivatingly describes Barack Obama's tumultuous upbringing as a young black man attending an almost-all-white, elite private school in Honolulu while being raised almost exclusively by his white grandparents. After recounting Obama's college years in California and New York, Garrow charts Obama's time as a Chicago community organizer, working in some of the city's roughest neighborhoods; his years at the top of his Harvard Law School class; and his return to Chicago, where Obama honed his skills as a hard-knuckled politician, first in the state legislature and then as a candidate for the United States Senate. Detailing a scintillating, behind-the-scenes account of Obama's 2004 speech, a moment that labeled him the Democratic Party's "rising star," Garrow also chronicles Obama's four years in the Senate, weighing

his stands on various issues against positions he had taken years earlier, and recounts his thrilling run for the White House in 2008. In *Rising Star*, David J. Garrow has created a vivid portrait that reveals not only the people and forces that shaped the future president but also the ways in which he used those influences to serve his larger aspirations. This is a gripping read about a young man born into uncommon family circumstances, whose faith in his own talents came face-to-face with fantastic ambitions and a desire to do good in the world. Most important, *Rising Star* is an extraordinary work of biography—tremendous in its research and storytelling, and brilliant in its analysis of the all-too-human struggles of one of the most fascinating politicians of our time. A *Pura Belpré Illustrator Honor Book* Inspiring, reassuring, and beautifully illustrated, this new story from the creator of the *New York Times* bestseller *Dreamers* is the perfect gift for every child. A *New York Times Best Children’s Book of the Year* With the combination of powerful, spare language and sumptuous, complex imagery characteristic of her work, Yuyi Morales weaves the tale of a fawn making her way through a landscape that is dangerous, beautiful—and full of potential. A gentle

voice urges her onward, to face her fears and challenge the obstacles that seek to hold her back. Child, you are awake! You are alive! You are a bright star, Inside our hearts. With a voice full of calm, contemplative wisdom, readers are invited to listen and observe, to accept themselves—and to dare to shout! In a world full of uncertainty, Bright Star seeks to offer reassurance and courage. Star Dancer

A Star in the West is an investigation by Elias Boudinot into the widely-held belief that the Native Americans were descended from the lost tribes of Israel. In the 18th and early 19th centuries, a hypothesis that the Native American tribes were part of a lineage tracing back to the Israelite tribes during the time of the Biblical testaments was popular. Intellectuals and church leaders alike were divided on the veracity of these claims, and a number of pamphlets and books were published on both sides of the argument for decades. Appearing in 1816, A Star in the West is important both as a historical study of the beliefs of the time and as a record of how Native Americans were perceived by the incipient white settlers of the United States. The book sequentially examines the traits, behaviors, customs and beliefs of the tribal societies, drawing parallels between these and the ancient practices of the Israelites. It is thought that A Star in the West and other books in the same vein led to the establishment of the Mormon Church. The Book of Mormon attests that Native Americans had arrived in North America thousands of years ago during the Great Flood of Biblical lore.

Thus, the tribes present in the 19th century were estranged descendants of the Israelite peoples. For his part, Elias Boudinot was a U.S. Congressman who was passionately in favour of rights for Native American and black inhabitants of North America. His prominent position made his views and publications influential, and he was also noted for his devout Presbyterianism. On meeting a young, bright Cherokee native he was impressed by he allowed the man to adopt his name - the Cherokee Elias Boudinot later became a prominent figure in Native American society during the early 19th century.

All eyes are upon Rikio. And he likes it, mostly. His fans cheer from a roped-off section, screaming and yelling to attract his attention--they would kill for a moment alone with him. Finally the director sets up the shot, the camera begins to roll, someone yells "action"; Rikio, for a moment, transforms into another being, a hardened young yakuza, but as soon as the shot is finished, he slumps back into his own anxieties and obsessions. Being a star, constantly performing, being watched and scrutinized as if under a microscope, is often a drag. But so is life. Written shortly after Yukio Mishima himself had acted in the film "Afraid to Die," this novella is a rich and unflinching psychological portrait of a celebrity coming apart at the seams. With exquisite, vivid prose, *Star* begs the question: is there any escape from how we are seen by others?
