Shadow: The Most Terrifying Idea in Psychology Subpersonalities The People Inside Us

We all have had the experience of being divided, of being in two minds' about something - one part of us wants to do this, another wants to do that. Subpersonalities is the first book to do justice to the phenomenon as a normal feature of our psychological life. John Rowan argues that we all have a number of personalities that express themselves in different situations and that by recognising them we can come to understand ourselves better and improve our relationships with others.

Subpersonalities on Apple Books

A subpersonality is, in humanistic psychology, transpersonal psychology and ego psychology, a personality mode that activates (appears on a temporary basis) to allow a person to cope with certain types of psychosocial situations. Similar to a complex, the mode may include thoughts, feelings, actions, physiology and other elements of human behavior to self-present a particular mode that works to negate particular psychosocial situations.
