Oxford Handbook of
International
Relations - Oxford
Handbooks

Most textbooks in the
field describe the
evolution of
international criminal
tribunals, the
elements of the core
international crimes,
the applicable modes
of liability and

Page 148/160

defences, and the role of states in prosecuting international crimes. The Oxford Handbook of International Criminal Law, however, takes a theoretically informed and refreshingly critical look at the most controversial issues in international

Page 149/160

criminal law,
challenging
prevailing practices,
orthodoxies, and
received wisdoms.
